

🔍 TRUST BUT VERIFY

Elder fraud, by the numbers — and the one habit that stops most of it

\$7.7 BILLION

lost by Americans 60+ to fraud in 2025 — a 59% jump in one year

201,266 complaints filed. Average loss per victim: \$38,500. FBI IC3, 2025.

WHERE THE MONEY ACTUALLY GOES

Investment fraud (crypto, fake trading platforms) **\$3.52B**

Recovery scams — stealing from people already scammed once **\$540M**

Tech support scams (FTC, 2024) **\$159M**

Grandparent / distress scams, voice cloning **\$5M+**

Bar length shows relative size, not to scale below ~1%. FBI IC3 2025 Elder Fraud data; FTC 2024-2025 for tech support.

WHAT'S GROWING FASTEST

- Phishing / spoofing texts and emails, age 60+ **up over 100%**
- Government impersonation calls **nearly doubled**
- Romance scams targeting older adults **up 30%**
- Scams referencing or using AI voice cloning **3,100+ complaints, \$352M+ lost**

THE ONE HABIT THAT STOPS MOST OF THIS

1

Look up the number yourself.

Not the one they gave you.

2

Call the person yourself.

Hang up first. If it was real, they'll still be there.

3

Wait a day.

Real problems survive a night. Scams don't.
