

STOP. CHECK. HANG UP.

Keep this next to your computer

3 SIGNS IT IS A SCAM

THEY contacted YOU

You feel scared, rushed, or excited

They want an unusual payment

ALL THREE? IT IS A SCAM. EVERY TIME.

ASK YOURSELF THESE 5 QUESTIONS

1. Did I go looking for this — or did they come to me?
2. Why am I in such a hurry?
3. Would this still make sense tomorrow morning?
4. Are they telling me to keep this secret?
5. Would I be embarrassed to tell my family what I'm about to do?

Any answer worry you? **STOP.** You are allowed to hang up.

NEVER — NO MATTER WHO IS ASKING

Gift cards · Wire · Bitcoin machine

Cash or gold to someone at your door

"Move your money to a safe account"

Letting a caller onto your computer

Logging into your bank while someone watches or listens, even by phone

No real bank or government agency EVER asks for these.

ALWAYS

Hang up. Look up the number yourself. Call back.

Ask for your family code word — a spoken phrase, not a login password

Wait 24 hours before any money moves

Use unique passwords — a password manager remembers them for you

NOT SURE? CALL FIRST — IT IS FREE
