

TRUST BUT VERIFY

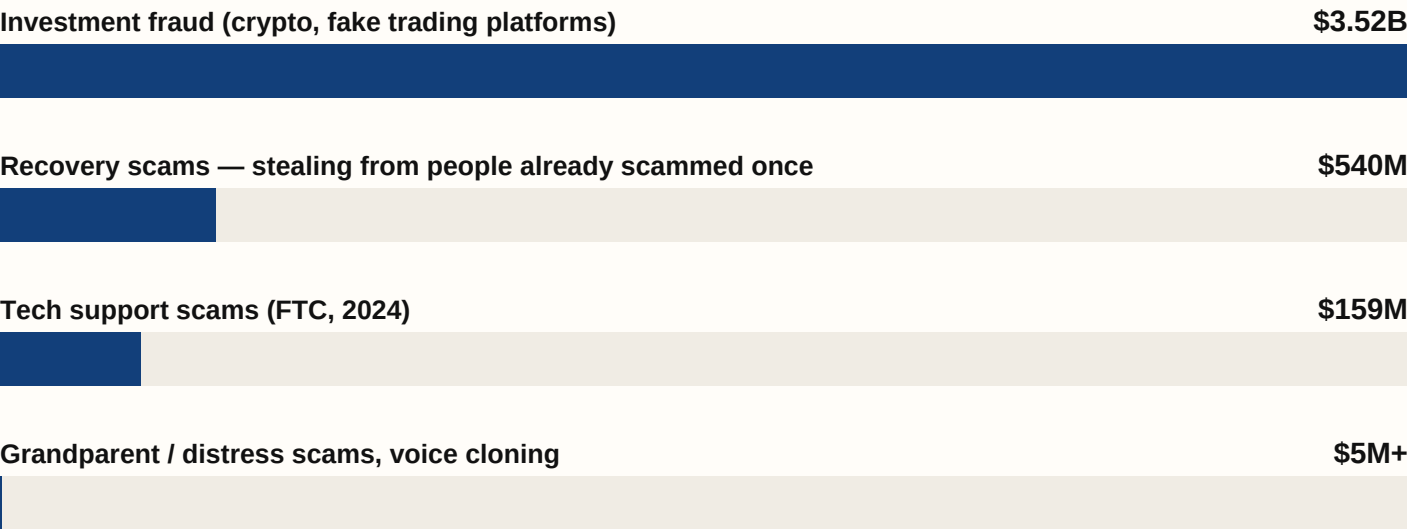

Elder fraud, by the numbers — and the one habit that stops most of it

\$7.7 BILLION

lost by Americans 60+ to fraud in 2025 — a 59% jump in one year

201,266 complaints filed. Average loss per victim: \$38,500. FBI IC3, 2025.

WHERE THE MONEY ACTUALLY GOES

Bar length shows relative size, not to scale below ~1%. FBI IC3 2025 Elder Fraud data; FTC 2024-2025 for tech support.

WHAT'S GROWING FASTEST

- Phishing / spoofing texts and emails, age 60+ up over 100%
- Government impersonation calls nearly doubled
- Romance scams targeting older adults up 30%
- Scams referencing or using AI voice cloning 3,100+ complaints, \$352M+ lost

THE ONE HABIT THAT STOPS MOST OF THIS

1

Look up the number yourself.
Not the one they gave you.

2

Call the person yourself.
Hang up first. If it was real, they'll still be there.

3

Wait a day.
Real problems survive a night. Scams don't.
